

# Cheap iPad Car Head Restraint Holder

Written By: Jeroen Dontje

## SUMMARY

Here's how to transform an Ikea paper/magazine holder into an iPad holder for the back seats of your car. The holder is easy to install and remove when necessary. Making this should take about 10 minutes and cost less than \$10.

### Step 1 — Cheap iPad Car Head Restraint Holder

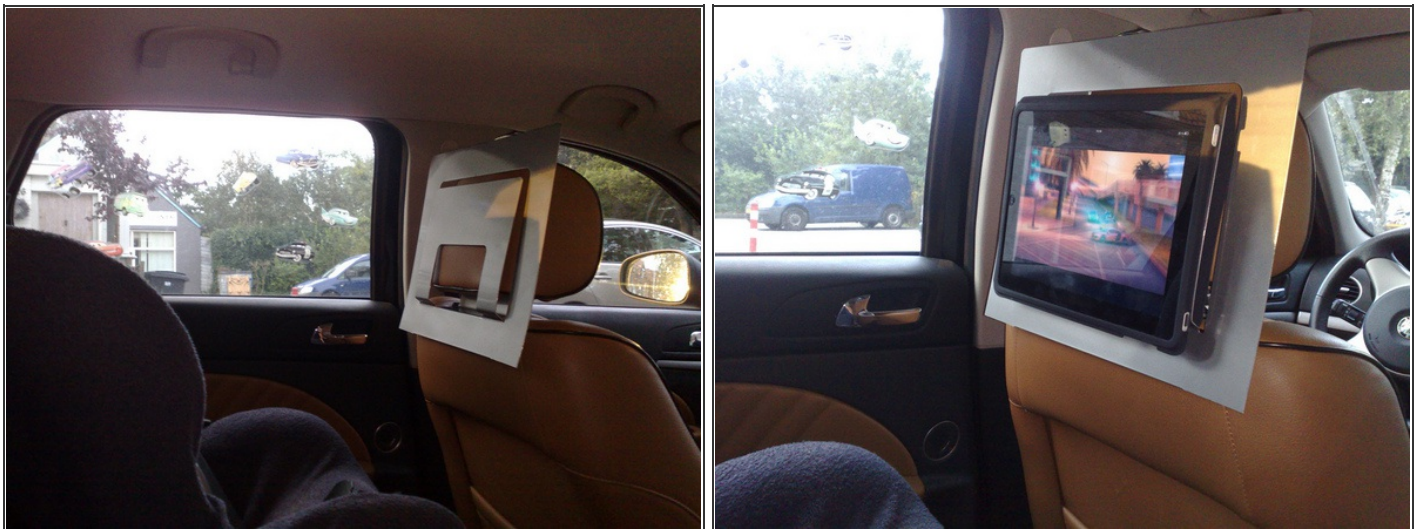

- Buy an [Ikea Spontan magazine rack](#) (about 10 dollars) and use a metal saw to get the top off.

## Step 2

- Place the iPad in the standard Apple [case](#). Flip the case's cover back and slide it into the cut-off newspaper holder.

## Step 3

- Place it at the back of a head restraint and push the restraint down until it is secured. Et voilà!
